For the year ended 31 May 2016

## 10. Accounting framework

### 10.1 Basis of preparation

The principal accounting policies applied in the preparation of the Group and Company annual financial statements are in the related notes and are consistent with those adopted in the prior year, unless otherwise specified.

The Group and Company annual financial statements have been prepared in accordance with International Financial Reporting Standards (IFRS), the SAICA Financial Reporting Guides as issued by the Accounting Practices Committee and Financial Reporting Pronouncements as issued by Financial Reporting Standards Council, the JSE Listings Requirements and the Companies Act, No 71 of 2008.

The term IFRS includes International Financial Reporting Standards (IFRS), International Accounting Standards (IAS) and interpretations issued by the International Financial Reporting Interpretations Committee (IFRIC) or the former Standing Interpretations Committee (SIC). The standards referred to are set by the International Accounting Standards Board (IASB).

The Group and Company annual financial statements are prepared under the historical cost convention. Amounts are rounded to the nearest thousand with the exception of earnings per share, ordinary share capital and equity compensation benefit. The preparation of financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Judgements made by management in the application of IFRS that have a significant effect on the financial statements and estimates with a significant risk of material adjustment in the next year are discussed in the notes to which they relate.

### 10.2 Going concern

The Group and Company's forecasts and projections, taking account of reasonably possible changes in trading performance, show that the Group and Company should be able to operate within its current funding levels into the foreseeable future.

After making enquiries, the directors have a reasonable expectation that the Group and Company have adequate resources to continue in operational existence for the foreseeable future. The Group and Company therefore continue to adopt the going-concern basis in preparing the financial statements.
